Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

SUBCELIULAR LOCATION: Outer membrane (By similarity).

DOMAIN: COUNTAINS 153 IMPERFECT REPEATS OF THE CONSENSUS

OCTAPEPTIDE A-G-Y-G-S-T-L-T; FURTHER ON A 16-RESIDUE AND A

REGIONAL 48-RESIDUE PERIODICITY IS SUPERIMPOSED.

MISCELLANEOUS: A STRUCTURAL MODEL IS SUBGRIFTED IN WHICH THE IC

NUCLEATION PROTEIN DISPLAYS A SYMMETRY RUGGESTED IN WHICH THE ICS.

SIMILARITY: Belongs to the bacterial ice nucleation protein
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          FUNCTION: Ice nucleation proteins enable bacteria to nucleate
                                                                                                                                                                                                                                                                                                                                                                                                           ECOLI
